Designing Classroom Tests for Students with Learning Disorders

- 1. Definitions: Dyslexia, Dyscalculia & Generalized Learning Disorder (Slow Learner).**
- 2. How do these learning disorders affect students in the classroom?**
- 3. What factors should be considered when designing a test for LD students?**
- 4. Are there some students who should never be expected to write a test?**
- 5. If so, what alternatives are there to testing and evaluating these students?**
- 6. Does bilingualism or multilingualism influence a LD student's performance on tests?**
